

Capstone: Your trusted BIM Partner for Structural Engineering Excellence

The US construction industry is experiencing a period of steady growth, demanding ever-increasing efficiency and sustainability. BIM adoption in the US is well-established, with estimates hovering around 70-80%. This widespread use fosters collaboration across project teams, minimizing errors and driving cost-effectiveness. Furthermore, BIM aligns perfectly with growing trends in sustainable construction, a key focus area for many US projects. As the global BIM market reaches \$10.6 billion by 2027, BIM is poised to remain a crucial tool shaping the future of US construction. Capstone Engineering stands at the forefront of this movement, offering structural BIM expertise to deliver high-performance and cost-effective solutions for your projects throughout the United States.

Structural BIM Expertise:

- CIP and Precast
- Rebar/Reinforcement Contractors
- Framing and Drywall Contractors

About Capstone Engineering Solution:

Welcome to Capstone, where innovation meets expertise in architecture, structure, MEP, and industrial services. With a proud legacy spanning over 17 years, we have emerged as a trusted partner for industry giants like Specon, Petrofac, TechnipFMC, AECOM, and Dodsai. Our journey is marked by a relentless pursuit of excellence, delivering top-notch solutions in architecture, building, house exteriors, renovations, and industrial projects.

Our Services:

- Constructability Analysis
- 3D Element Modeling
- 3D Rebar Modeling
- 3D Modeling for Buildings
- Construction Drawings/Shop Drawings/Fabrication Drawings
- Quantity Take-Off
- As-Built Modeling and Drawings

BIM for Structure

Sectors we facilitate:

- Residential Buildings
- Commercial Buildings
- Railway Stations and Airports
- Hospitals, hotels, and Resorts
- Schools and Universities
- Industrial Gas Stations
- Historical Monuments

Structural BIM Modeling

Detailed Design Input

BIM Structural Analysis

Work Process:

Capstone Engineering uses Structural BIM to transform your project. We craft accurate 3D models, conduct constructability analysis to identify potential issues early, prioritize performance-driven design, and adhere to international standards while customizing to your specific needs.

Software Used:

Leveraging industry-leading BIM software like Revit Structure, STAAD.Pro, ETABS, RISA, and SAP2000, Capstone Engineering delivers cutting-edge Structural BIM solutions.

Structural Project Samples

Detailed Structural Engineering Drawings

Building with columns, beams, trusses, & slabs in a wireframe view

Detailed Structural BIM model featuring a multi-story office building

Structural Design Validation

We engineer structural systems with BIM, optimizing performance, sustainability, and seamless building integration.

Structural BIM Drawings
